

BEEKEEPING TASTER EXPERIENCE 2022

Held at Denes Apiary Darlington

Hands on beekeeping at a Taster Experience

If you have ever thought of keeping your own bees, but are unsure how to start, or if you are wondering what is involved and how much it will cost, but are not sure how you will react to being close up and personal with real live bees then attending a Taster Experience could be the answer. The Experience is intended to provide adults or young people (age 16+) with an insight into bees and beekeeping by means of talks, demonstrations and as much practical beekeeping as time and weather allow. If the Taster Experience inspires you to keep bees then we would recommend that you join your local Beekeeping Association, take a more in depth course and join the Craft of beekeeping.

Each Taster Experience will last about 2 hours. The Experience fee of £25 includes tea and coffee. Protective jackets or suits and gloves will be provided on loan and you will need loose fitting trousers and clean wellington boots or stout walking shoes/boots. Places are limited to allow full participation.

Taster Experiences will be held on Saturdays or Sundays during June or July 2022

Please contact DBKA Secretary Debra Hirst (secretary1dbka@gmail.com) if you would like to book a place.
